WHO WE ARE

# Built for *trust*. Designed for *time* together. Created for *long-term business*

Connections is a global community for senior decision-makers in luxury travel. Since 2014, we have brought carefully selected buyers and suppliers together through invitation-only events built around trust, time and shared experience.

Curated one-to-one meetings give each event structure. Shared experiences, hosted networking and time together beyond the meeting table allow conversations to develop naturally, creating stronger commercial connections than a standard appointment diary.
